

Profile

Our company was formed in 1988 in Hong Kong and had its manufacturing factory situated in a border town with mainland China. We now have a self-owned modern factory with total workable area of 51,000 square feet and manned with 500 skilled workers.

We are very specialized in umbrella production with five covering categories, namely the sunshine parasol umbrella, golf umbrella, beach umbrella, super-mini umbrella and umbrella for kids; further, our subsidiary company also produces handbags and raincoats for exports to world markets.

Our products are of good quality and price reasonable; we have this high reputation for years from buyers from Japan, the United States, Europe and Australia. So far, we have handled a lot of OEM brands such as Hello Kitty, Fila, Pierre Cardin, Calvin Klein, Zepter, Disney and Pepsi etc. And these brand holders are satisfied on our products.
